

## INDIANA ENVIRONMENTAL STEWARDSHIP PROGRAM ANNUAL PERFORMANCE REPORT

State Form 53475 (11-07)
INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT
ENVIRONMENTAL STEWARDSHIP PROGRAM

Indiana Department of Environmental Management Office of Pollution Prevention and Technical Assistance

100 North Senate Avenue IGCS W041
Indianapolis, IN 46204-2251
Telephone: (800) 988-7901
FAX: (317) 233-5627

FAX: (317) 233-5627 E-mail: esp@idem.IN.gov www.in.gov/idem/prevention/esp

When to use this annual report form...

**STOP!** Is your facility a member of the U.S. Environmental Protection Agency's National Environmental Performance Track and Indiana Environmental Stewardship Program? If so, please use the U.S. EPA National Environmental Performance Track Annual Performance Report form available at http://www.epa.gov/performancetrack/program/report.htm. The U.S. EPA will notify IDEM after receiving your annual performance report.

**GO!** Please use this annual report form if you are <u>only</u> a member of the Indiana Environmental Stewardship Program and <u>not</u> a member of the National Environmental Performance Track. Your Annual Performance Report should be reviewed and signed by a senior manager at your facility prior to submittal. Once signed, fax, mail, or e-mail the report to IDEM. If you have any questions, please contact the ESP Program Manager at 800-988-7901.

The Indiana Environmental Stewardship Program (ESP) Annual Performance Report should demonstrate progress toward objectives and targets AND certify ESP requirements continue to be achieved. The Annual Performance Report should cover the twelve (12) month calendar year and include the status of projects committed to in your facility's original ESP application, results of completed projects, and assurance that an annual internal environmental management system audit was conducted by your facility. Indiana ESP facilities must submit an Annual Performance Report by April 1<sup>st</sup> of every year, for each calendar year in which the entity has been a member for at least three (3) full months.

Please do not include any confidential business information in your Annual Performance Report. Public access laws require IDEM to make the Annual Performance Report publicly available, which may include posting all portions of your report on the Indiana ESP Web site.

SECTION A FACILITY INFORMATION
Name of Facility
Cummins Columbus Midrange Engine Plant
Name of Parent Company (If applicable)
Cummins Inc.
Street Address (number and street)
Interstate 65 and County Road 450 S.
City/State/ZIP Code
Columbus, IN 47201
Facility/Company Web site
www.cummins.com
CONTACT INFORMATION
Contact Name (Mr./Mrs./Ms./Dr.)
Ms. Mila Radovanovic
Title
Environmental Manager
Telephone number
812-377-1033
FAX number
812-377-8540
E-mail address
mila.radovanovic@cummins.com
Mailing Address (if different from facility address)
Interstate 65 and County Road 450 S. MC: 71328
City/State/ZIP Code
Columbus, IN 47201
Reporting Period Dates
If this is your third Annual Performance Report, do you wish to renew your Indiana Environmental Stewardship Program membership?  Yes.—If yes, please complete all sections of this annual report.
Li resii yes, piease complete an sections of this annual report.
☐ NoIf no, you can skip Section D of this annual report.
CHANGE IN INFORMATION
In your ESP application and, perhaps, in previous annual performance reports, you described what your facility does or makes. Have there been any changes or additions to your facility's list of products or activities? If so, please list them in the space below.  ☐ Yes ☒ No

SECTION B ENVIRONMENTAL MANAGE	EMENT SYSTEM ASSESSMENT
Why do we need this information?  IDEM needs information on the performance and assessment activities of your Environmental Management System (EMS).	What do you need to do? Please summarize your facility's EMS assessments. Attach additional sheets as necessary.
Is your facility currently registered to a recognized third-party EMS standard?  ☑ Yes	Year: 2007
<ul> <li>a. If yes, when was an EMS audit or other assessment last conducted by an independent third party at your facility? Please provide the type (e.g., ISO 14001 certification), scope, and month of the last assessment.</li> </ul>	Type: ISO 14001 Renewal Registration Audit Scope: Whole facility Month: April
<ul> <li>No</li> <li>b. If no, when was an internal or corporate EMS audit last conducted at your facility? Please provide the scope and month of the last assessment.</li> </ul>	Year: Scope: Month:
<ol> <li>When did your facility last conduct an internal or corporate compliance audit? Please provide the scope and month(s) of each audit, and indicate who conducted the audit(s) (e.g., facility staff, corporate groups, third party). Do not include audits, inspections, or site visits by regulatory organizations.</li> </ol>	Year: 2007 Scope: Whole facility Month(s): May Who: Third Party
<ol><li>(Optional) Please describe any other audits that were conducted at your facility.</li></ol>	
4. Has your facility corrected all instances of potential non-compliance and EMS non-conformance identified during your audits and other assessments?  ☑ Yes  a. If yes, briefly summarize corrective actions taken and other improvements made as a result of your EMS assessment(s) or compliance audit(s).  ☐ No  b. If no, please explain your plans to correct these instances.	A new wastestream was created to dispose of used rags from the paint process, along with training and additional documentation. The noise facility (a separate Cummins building on the property) was removed from our air permit. Some EMS procedures were changed to reflect what actually happens.
☐ No such instances identified.	
5. Explain the emergencies experienced within the facility during the past year. Were the applicable emergency and contingency plans detailed in the EMS effective? What changes, if any, have been made to your facility's emergency or contingency plans?	There was a spill in the paint kitchen in Q4 of 2007 and a spill outside in Q3 of 2007. The emergency plan was effective and no changes were made to the plan.
When was the last Senior Management review of your EMS completed?	Month/Year: January 2008 Who headed the review? Name and Title: Andy Cesarski, Plant Manager
When did your facility last conduct a systematic identification or review of your environmental aspects?	Month/Year: April 2007
10. (Optional) Please provide a narrative summary of progress made toward EMS objectives and targets other than those reported as an Environmental Performance Initiative in the following section. You may limit the summary to environmental aspects that are significant and towards which progress has been made during the last calendar year. Attach additional sheets as necessary.	Environmental Aspect Progress Made This Year (e.g., quantitative or qualitative improvements, activities conducted)
year. Attach additional sheets as necessary.	

#### SECTION C

#### **ENVIRONMENTAL IMPROVEMENT INITIATIVE RESULTS**

Why do we need this information?

Facilities need to share the results of the environmental improvement initiative that was pursued during the reporting period.

What do you need to do? Use the following table to summarize your facility's environmental performance as compared to your ESP environmental improvement initiative.

Category: Air Emissions

Aspect: Air Emissions

Specific Information on Aspect (antional): VOC.

	Baseline	Progress during year 2008	Environmental Improvement Initiative Goal	Cost Savings (if applicable)
Actual Quantity (per year)	52200	11189	25600	
Measurement Unit	pounds	pounds	pounds	
Normalized Quantity (per year)	0.32	0.58	0.16	
Basis for your Normalizing Factor (e.g., gallons of paint produced)	# of engines	# of engines	# of engines	

Briefly describe how you achieved improvements for this aspect or, if relevant, any circumstances that delayed progress.

Our environmental initiative was to switch from clear solvent based paint to clear water borne paint. This change required our customer approval (Chrysler). Chrysler has not approved this change yet. We are going through the final stages of receiving their approval. In August of last year, we added some additional customers and added a red water borne paint. Unfortunately, more water borne paint is needed for the same level of coverage on the engine. Also, in early 2007 we added two additional robots to the paint booth to bring the total number of robots to four. The baseline numbers were from 2006 when only 2 robots were in use. So, the final VOC savings may not be as large as orginally projected.

Please list any state. EPA, or other partnership programs to which you are reporting this data (e.g., Energy Star, Project XL). NΑ

(Optional) If your facility has experienced continued results for environmental improvement initiatives pursued in past years of ESP membership, please share those results here.

#### SECTION D

**ENVIRONMENTAL IMPROVEMENT INITIATIVES** 

Why do we need this information? Facilities need to demonstrate their commitment to improving environmental performance

What do you need to do? Refer to the Environmental Performance Table.

For ESP membership, you must identify three (3) environmental improvement initiatives for each 3-year membership term. One (1) initiative was identified in the application and the remaining will be identified each year in the annual report. Identify the new initiative that will begin this year by answering the following questions. Choose an indicator from the Environmental Performance Indicator Table to measure the identified environmental initiative. The Environmental Performance Indicator Table is provided with the ESP Application and is also available at http://www.in.gov/idem/prevention/esp/table.doc. The indicator you select for your initiative should be related to the objectives and targets in your EMS. Where possible, indicators should also be identified as having a significant environmental impact in your EMS. No more than two of your indicators can be from the same environmental category during the 3-year term. If you are not sure how your objectives and targets fit into the indicators from the Environmental Performance Indicator Table or whether your indicators are significant, call IDEM at 800-988-7901.

Please complete the following questions according to the environmental indicator you selected from the Environmental Performance Indicator Table. Additional information is required for air, hazardous waste, solid waste, and energy indicators as requested in Appendix 1.

- 1a What category have you selected from the Environmental Performance Table? (If the category is Energy Use, Waste, or Air Emissions for Total GHGs, please turn to Appendix 1 to complete additional questions pertaining to the category you have selected.) Energy Use
- 1/2 What indicator have you selected from the Environmental Performance Table? Total (non-transportation) energy use by fuel type
- 1c All measurements should represent the performance level for the indicator across the entire facility. For many indicators, you may choose to focus your initiative on a specific subset of the indicator (e.g., a specific material, process, VOC, group of toxic air emissions, or particular waste component). Does your initiative include everything covered by the indicator (e.g., all VOCs, all non-hazardous waste), or a specific process, substance, or component (e.g., ethane, cardboard)?

☐ All Specific

If your initiative is specific to a substance or component, please provide additional detail on your indicator (e.g., specific chemical to be reduced, specific waste component). Electricity

1d What activities or process changes do you plan to undertake at your facility to accomplish your initiative (e.g., technology changes in a particular process

system
2a Does this initiative address a significant aspect in your EMS? ☐ Yes ☐ No
2b If no, please explain why you believe this indicator should be included as an environmental improvement initiative. Reduction of electricity use leads to the reduction of GHG's
Stop! If the category listed in Question 1a is Energy Use, Waste, or Air Emissions for Total GHGs, please skip Questions 3a – 3b below and turn to Appendix 1 to complete the questions pertaining to the category you listed. After completing Appendix 1, return to question 4 and complete the remaining questions regarding your facility's environmental improvement initiative.
3a What units are you using to quantify this indicator? (Please refer to the Environmental Performance Indicator Table for the acceptable units for each indicator.)
3b List the baseline annual quantity of the indicator and the annual quantity you are committing to achieve by the future year.  Baseline quantity Year Future year quantity (not including production) Year
<ul> <li>4 Does the quantity presented in the future quantity column represent an absolute goal or a normalized goal?</li> <li>☑ Normalized goal (i.e., indexed to level of business in baseline year)</li> <li>☐ Absolute goal (i.e., demonstrates improvement even if production increases)</li> </ul>
5 Whether your goal is absolute or normalized, you will need to provide normalizing factors and normalized quantities in your annual performance reports. Please briefly describe your basis for normalizing. Examples of potential normalizing basis include: gallons of paint produced, square feet of circuit boards sold, number of patients seen, dollars of sales adjusted for inflation, or number of employees (for R&D and administrative sites only).  Number of Engines (must consider EPA's weather calculator)
6a Are you subject to Federal, State, tribal, or local regulatory requirements for this indicator?  ☐ Yes ☐ No
6b If yes, explain how your initiative exceeds regulatory requirements.
SECTION E PUBLIC OUTREACH AND PERFORMANCE REPORTING Why do we need this information? What do you need to do?
Why do we need this information?  IDEM needs to know how environmental information was shared with the public.  What do you need to do?  Describe how the facility has shared and plans to share environmental information.
Why do we need this information?  IDEM needs to know how environmental information was shared with the public.  Please briefly describe the activities that your facility conducted during this reporting period to interact with the community on environmental issues and to

## SECTION F ADDITIONAL INFORMATION Why do we need this information?

This information will help IDEM to effectively manage the Environmental Stewardship Program. What do you need to do? Answer the questions as completely as possible.

 In addition to ESP, please list environmental awards received or voluntary programs participated in during the past twelve months (include information about each particular program).

NA

- Has your facility taken advantage of any ESP incentives? If so, please describe the implementation process and list additional benefits IDEM should consider.
  - Yes, we have taken advantage of ESP incentives and we are waiting on implementation.
- 3. If your facility was not registered to the ISO 14001 standard prior to becoming an ESP member, has ESP helped you to pursue registration? If so, how has ESP been instrumental in achieving registration?

NA

- 4. Explain the measured or perceived results from receiving, documenting, and responding to external communication.

  We have not had any documented cases of external communication.
- 5. How have community residents and businesses reacted to your facility participating in the Indiana Environmental Stewardship Program?

  We are not aware of the how community and businesses have reacted to our participation in ESP.
- According to the measurement program developed and implemented by your facility to measure Environmental Management System success, is
  your facility's EMS successful? Why or why not? If not, what changes will be made to ensure continual environmental improvement and future EMS
  success?
  - Yes, our EMS is successful because it drives continual improvement within the facility. Our EMS makes us think about how each decision or process could impact the environment.

#### **CERTIFICATION AND PLEDGE**

On behalf of Cummins Columbus Midrange Engine Plant (name of facility),

I certify that the information contained in this Annual Performance Report and attachments is accurate to the best of my knowledge and that this facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with all applicable federal, state, and local environmental requirements, or has a corrective action program in place to attain compliance.

We, Cummins Columbus Midrange Engine Plant, commit to maintaining the principles and goals outlined in our Environmental Management System for our facility's Indiana Environmental Stewardship Program status. We agree to strive for full compliance with all regulations promulgated by the U.S. EPA, state, or local jurisdictions. We agree to promote the Indiana Environmental Stewardship Program and to share our success stories with other facilities. We understand that the Annual Performance Report must be submitted to IDEM by April 1st of each year and that we must reapply to the Indiana Environmental Stewardship Program every three years.

I understand that the information provided in this Annual Performance Report will be public record. I am the senior facility manager or authorized facility signatory, and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is submitting this Annual Performance Report.

#### **ENVIRONMENTAL PERFORMANCE DATA**

dditional questions for environmental improvement initiatives for the following categories/indicators:

Ε	nerav Use -	Non	-Trans	portation

In the table below, please enter the amount of energy that you currently use and that you intend to use in your future reporting year. Break the energy use down by fuel type. Please note that you need only complete those lines that are relevant to your facility. If all of your energy is purchased from a local electricity generator, you may only need to complete the first line. If the facility uses natural gas, please be sure to complete the appropriate line (natural gas is typically combusted on site so it is listed in the "onsite" section).

Please note that this table categorizes sources of energy according to where the energy is generated.

# Cummins earns Fortune award

UMMINS Inc. has been named among North America's 20 best companies for leaders.

Fortune magazine ranked Cummins 14th. General Electric occupied the top spot.

"This is a wonderful honor for Cummins," said Jill Cook, vice president for human resources.

"We understand that to be a top company, we must have outstanding leaders — individuals who live the Cummins' values and are committed to making this a great place to work."

The award is open to any organization. Last year, 563 participated by completing a detailed questionnaire.

Hewitt Associates, Fortune and RBL Group identified 250 finalists which completed an in-depth interview. Judges, including authors and journalists, selected the winners in each of four geographic areas around the globe.

#### Environmental awards

Cummins Midrange Engine Plant and Metaldyne Sintered

**Boris Ladwig** 

Components in North Vernon recently were recognized by the state for environmental leadership.

CMEP and Metaldyne were among 10 Indiana facilities or companies recently named members of Indiana's Environmental Stewardship Program.

Gov. Mitch Daniels and Indiana Department of Environmental Management accepted the companies into the program after they agreed "to continuous environmental improvements and demonstrating long-term compliance with environmental laws."

"These 10 Indiana compa-

nies achieved tremendous results," Daniels said. "They demonstrate that economic activity and environmental protection can work together."

"ESP members voluntarily eliminate wastes, preserve resources and protect the environment. They deserve recognition for going beyond basic requirements of the law," said IDEM Commissioner Thomas W. Easterly.

ESP members "can receive accelerated permit review, flex ibility in permitting, less frequent data review and other benefits that will aid the company without loosening current environmental regulations," according to a press release.

Efforts of the new members in the first year will result in reduction of energy usage by 25 percent, water usage by about 10 percent, volatile organic compound emissions by about 55 percent and non-hazardous waste by nearly 300 tons.
